COMPAQ

^(a) GHz refers to internal clock speed of the microprocessor. Other factors besides clock speed may impact system and application performance. Speeds listed for Intel processors are maximum performance levels on AC power. The processor speed is reduced on battery power to optimize battery life. Please go to www.hp.com for more details on battery life conservation.

^(b) In reference to hard drives, GB = billion bytes. Accessible capacity may vary.

^(c) Actual data transfer rates will vary.

^(d) Maximum achievable download speeds are currently unknown, may not reach 56Kbps and will vary with line conditions. Upload speeds are less and also will vary.

^(e) Shared video memory (UMA) uses part of the total system memory for video performance. System memory dedicated to video performance is not available for other use by other programs.

^(f) Internet access requires payment of additional fees or subscription for use. Special Offers do not include local telephone company charges, if any, or applicable taxes. Any long distance charges incurred will be the responsibility of the customer. Please make sure your access number is local. A valid credit card is required to initiate the service. This offer is valid in the U.S.A. only. Additional terms and conditions may apply; see particular offers for details. Certain state specific restrictions and exclusions apply.
